**DEFINITION:** Basic education financing boards of centers have elected to restructure the February through June 2002. The School Code of Illinois (105 ILCS 5/18-8(g)) allows schools to restructure the school year to provide for a variety of instructional programs, including staff development, staff development days, and other activities, while ensuring that students receive the required minutes of instruction per day between the scheduled development days. Since the additional time has been accumulated, it is not the day's schedule with the remaining time reserved for staff development activities.

All restructured calendars have been thoroughly reviewed for accuracy to ensure that students receive the minutes of instruction per day as stipulated in the School Code of Illinois.
